### **OFFER OF TANDEM FRAMES AND TANDEM COMPLETE BIKES**

We would like to address you this special offer as the professional frame's czech producer. Our production activity is focus on all of cycling branches, but in this time we produce many tandems specials and because of this situation we prepare interesting offer for tandem's clubs and handicap racers.

Duratec Company was established in 1997 and the main activity is HAND MADE frames for racing. We use material Aluminium 7020T6 and composite materials. Our philosophy is established on customer, on customer's wish – frame parameters, sizes, length of tube, angles, components and design specification (notice: Duratec name on down tube each time!, other tubes possible for sponsors).

Tandem alu frame – model Big Bang – is produced in modifications: road, track, mtb, trekking. Frame includes special BB excenter for chain fastening, the headset FSA Orbit IS and it is prepared for montage. For mtb tandems there is possible choice of geometry for full suspension fork & fixed fork. Technical information are on [www.duratec.eu](http://www.duratec.eu) and other tandem specification as geometries etc. on page

<http://www.duratec.eu/index.php?page=frame&idCat=19&idFrame=20&view=frame&view=bike>

We would like to offer you not only tandem frame, but we are able to build up complete tandem bikes. We are very often contacted by many customers for example for tandem cranks that are very special (thread, length). Czech producer GEBHARDT is the best one for tandem cranks. Please see picture down.

Big show of Duratec tandems and their manufacturing will be during Paralympic Game in Peking 2008, where we can see on Duratec tandem Czech, Slovak, Poland and Holand national teams. For your idea you can see pictures down.

If you are interested in our offer, please do not hesitate to contact us. We send you other business condition incl. prices. We will be pleased with your cooperation.

Best regards,

Kateřina Duchková  
Business manager of Duratec Co.
