Richard and Jeroen on Pro-Lite Vicenza wheels at Apeldoorn Track Opening

(Translated from Dutch Press Release)

Richard and Jeroen came in the lane with Alfred and Jaco from the start and they took advantage on the silver medal winners in Beijing and were in the running of the race not to fall.

With a wide difference in the series they won a good time in a nice style to victory. Then it was the turn of the tandems of Luuk with Patrick and Lennart with Theo for their 3 kilometers chase. Soon it was clear that the time Richard and Jeroen had put down not feasible and the victory in the series for Luuk and Patrick was and the **competition for Richard and Jeroen.**

Thus was the result of this pursuit:

1st Richard and Jeroen

Alfred 2nd and Jaco

Luuk and Patrick in Action

Luuk and Patrick 3rd

The 2008 Lennart wegkampioenen and Theo were 4th

4th Theo and Lennart.
